

Easy way to
***Russian* customers**

Have you ever been bedazzled by
inability to do business with
Russians because you couldn't
find a way to actually get the
goods into Russia?

“

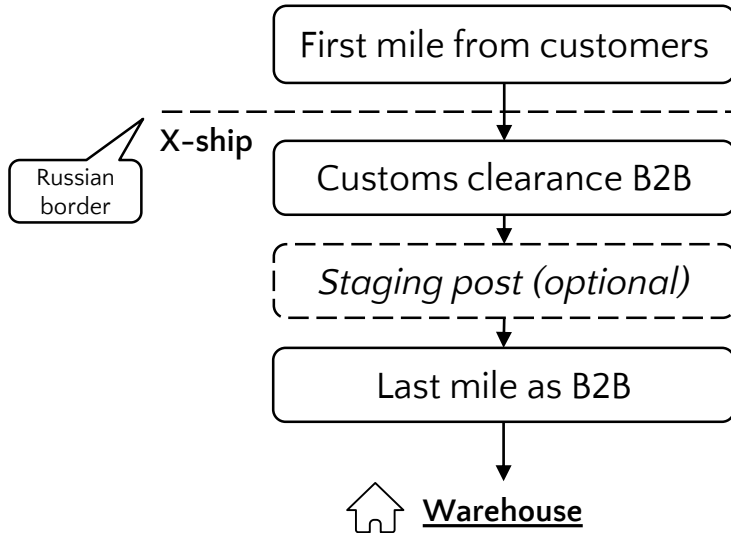

Reasons to work with us

- ⦿ Solutions for any type of import to Russia
- ⦿ Full customer services at all stages of import, including the last mile
- ⦿ Attractive rates due to aggregation of volumes
- ⦿ “Turnkey” software solutions for fulfillment
- ⦿ Detailed tracking for all members of supply chain (release Q1 2017)

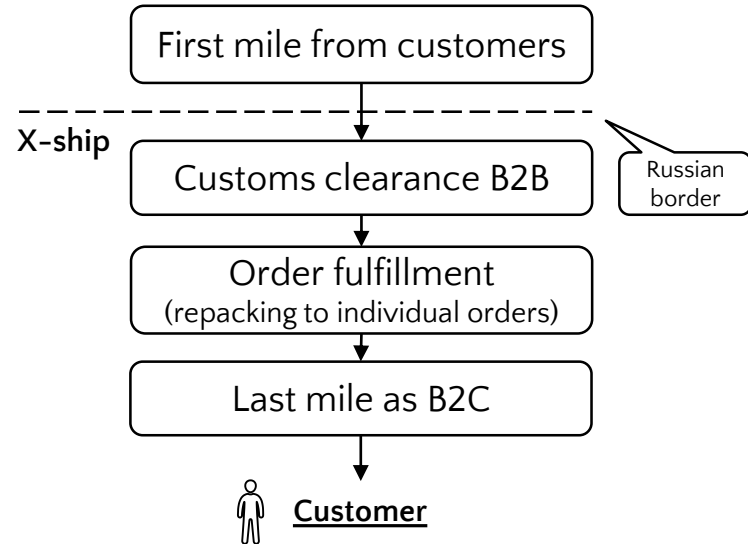

Import your goods as B2B

B2B last mile

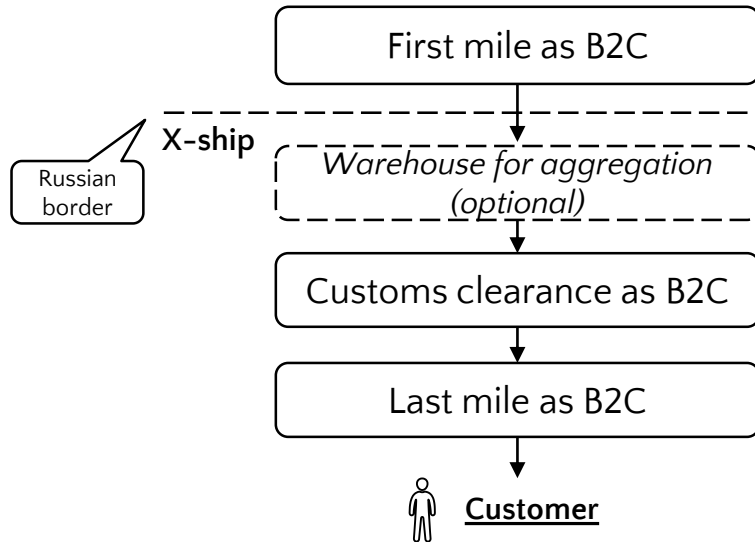

B2C last mile

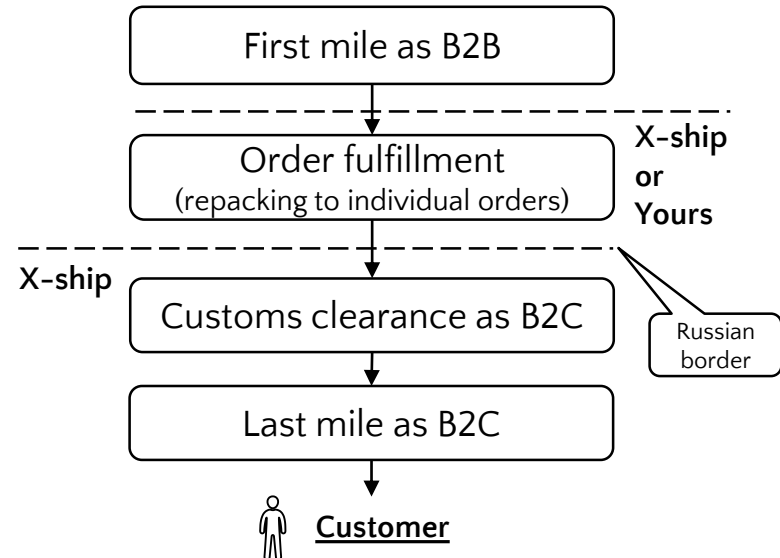

Import as B2C (duty free) directly to customers

B2C from start

Fulfillment in chain

Software solutions

Fulfillment software

Open your own fulfillment center. We provide ready-to-use software solution to pack B2C orders according to Russian customs legislation. It's already integrated with customs and last mile delivery services.

Customer integration

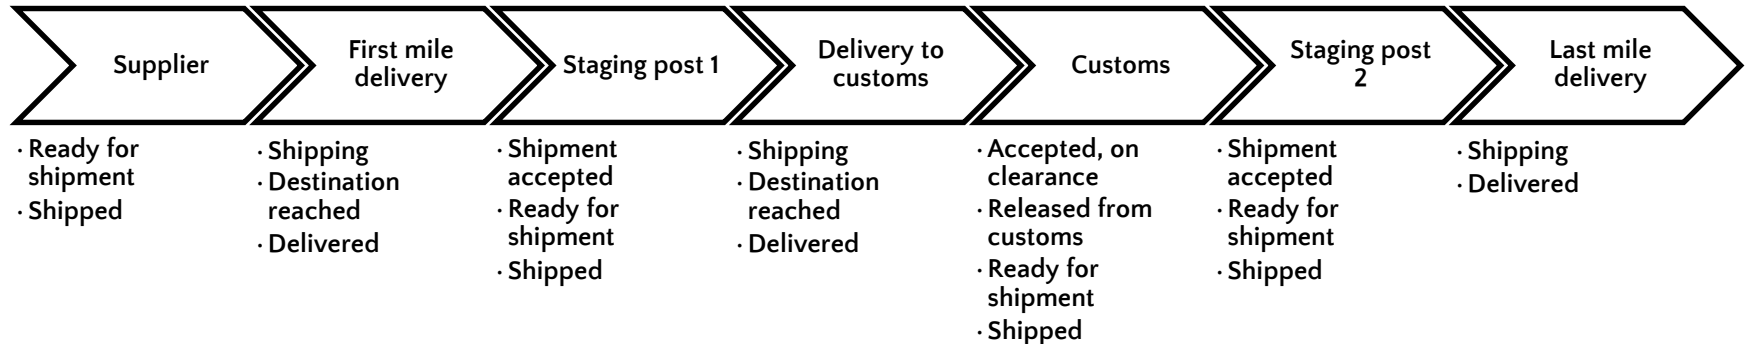

We could help your clients to integrate with customs and last mile delivery.

Extended tracking (Q1 2017)

There could be several contractors in supply chain during shipment. X-ship tracking system is able to control all of them – «first mile», customs, staging posts, «last mile». Each contractor has access only to its own part of chain.

Chains are **fully customizable** – elements and even statuses of elements

Thank you
